November 30, 2020

Dear City of Clewiston resident and/or business owner:

During the most recent budget process, the City of Clewiston (City) held an in depth review and discussion of a cost analysis for the solid waste collection services provided by the City. As a result, it became apparent an adjustment to the current longstanding garbage rates would be necessary in order to continue providing the quality level of services provided to residents and businesses alike, and to continue sustaining increased fees to dispose of solid waste once collected; an expense beyond the City's control.

Approved on November 16, 2020, Resolution No. 2020-82 amends the monthly garbage rates for the solid waste services provided by the City, effective January 1, 2021. Despite the revised fee schedule, the City's rates and level of service remain consistent with other surrounding communities.

The City remains committed to seeking ways to implement efficiencies and cost savings measures into these quality services.

For information regarding the City's Solid Waste Program, residents and businesses may call telephone number (863) 983-1471.

Sincerely,

CITY OF CLEWISTON

Sean Scheffler
Public Works Director

Enclosure
